The Top 20 Life-Changing Nutrients
You Can’t (Shouldn’t) Live Without:
Volume 1
by Ward W. Bond, Ph.D. with Peggy Nelson

The information in this book will
Astound you!
Fascinate you!
and keep you wanting more!

Here’s how to get healthy, stay healthy, and get the most enjoyment from your life and your body easily and naturally.

Finally! Here’s the book that breaks down the nutritional scientific mumbo jumbo into easily understood – yet fascinating facts and research. You’ll see at-a-glance benefits of each nutrient. Where they come from, what they do, and how they do it. Know why or if you should take Aequorin, Lion’s Mane, Maca or even Andrographis Paniculata.

You’ll just have plain fun discovering how nature’s natural nutrients are so easy to incorporate into your life.

You find out:
- Fascinating tidbits about your body and how each nutrient works to keep you vital, strong, and healthy.
- The easiest and best way to manage your health issues.
- How to stop premature aging. What to do and what not to do.
- How to keep Alzheimer’s and other diseases of the brain at bay.
- How to stop or prevent cancer.
- What the best anti-bacterial, antifungal there is to use.
- And much more – just turn the page.

Praise for Dr. Ward Bond’s Top 20 Life-Changing Nutrients You Can’t (Shouldn’t) Live Without!

“Dr. Bond has done the impossible: chosen the top twenty nutritional supplements we shouldn’t live without. No more guesswork, no more relying on friends advice - just the facts as to how your health could benefit by narrowing the confusing information about supplements down to the top 20 basics. This book was long overdue.”

- Fred Pescatore, MD, MPH, CCN
  - Author of The New York Times Best seller, The Hamptons Diet

“I am a big fan of Dr. Bond’s work and I highly respect his knowledge and practical know-how. His "Top 20 Life-Changing Nutrients" will help everyone achieve optimum health and healing because of Dr. Bond’s firsthand experience with all of his clients and TV viewers. Great book!”

Dr. Bond’s NEW Thyroid Complete ™
A dietary supplement to support thyroid function and health.*

Thyroid Complete ™ is a vegetarian blend of Tyrosine with herbal extracts, vitamins and minerals, not found in other supplements, and includes patented ForsLean® Coleus Forskohlii to support the maintenance and proper function of a healthy thyroid.*

Thyroid Complete ™ supports:

- Appetite and weight management*
- Energy*
- Mood*
- Production of thyroid hormones T3 (Triiodothyronine) and T4 (Thyroxine)*

Appetite and Weight Management:
- Chromium helps regulate blood sugar levels, helps the body stay in a fat burning mode, helps control appetite and cravings, supports weight management and helps to preserve lean tissue.*
- ForsLean® Coleus Forskohlii supports lean body mass through ergogenic activity.* It stimulates AMP (adenosine monophosphate), which then stimulates metabolism for greater fat burning.*

Energy:
- Folic Acid is needed for the manufacture of red blood cells. Fatigue is associated with a folic acid deficiency.*

Mood balance:
- Tyrosine supports mood as it is required for the production of dopamine, norepinephrine and epinephrine which are responsible for regulating mood.* It also helps to reduce appetite.*
- Bacopa Monnieri is an Ayurvedic herb that has been used to increase focus and concentration.*

Thyroid gland and hormone production:
- B Vitamins such as B2 is needed for metabolism and thyroid function. A lack of B2 can contribute to low thyroid function.*
- Vitamin B6 helps to regulate the production of thyroid hormones. It also supports the utilization of iodine required for the production of hormones.*
- Bacopa Mannieri has been shown to support the thyroid’s production of T4.*
- Copper plays an important role in thyroid metabolism, especially in hormone production and absorption.*
- ForsLean® brand Coleus Forskohlii is a perennial plant from the mint family. It contains an active compound called forskolin, which has been shown to mimic the effect of TSH (Thyroid Stimulating Hormone) with regard to iodine uptake.*
- Guggelsterones (extracts from the Indian herb Commiphora) have been shown to support the concentration of thyroid hormones in the blood especially the ratio of the active T3 to T4 in the blood.*
- Iodine is required for the production of thyroid hormones. It is a component of the thyroid hormones T3 (triiodothyronine) and T4 (thyroxin), and is therefore essential for normal thyroid function.*
- Manganese deficiency can reduce thyroid activity. Manganese is required for T4 production.
- Selenium is required for thyroid hormone production, activation and metabolism. It is an essential component of an enzyme that converts T4 to T3.*
- Tyrosine is required for the synthesis of thyroid hormones. A deficiency has been associated with low thyroid function.*
- Zinc is involved in the process that converts inactive T4 into active T3.

ForsLean® is a Registered Trademark and Patented Product of Sabinsa Corporation.

Suggested use: As a dietary supplement, take 2 capsules with food, twice daily until results occur, then take 2 capsules daily with food.

Dr. Ward Bond’s SUPER HEALTHY WHEY PROTEIN™

Dr. Ward Bond’s SUPER HEALTHY WHEY™ protein powder is an excellent source of protein, even surpassing whole egg, soy, beef, casein or milk in its biological activity in the body and its ability to deposit nitrogen in the muscles. Whey is also a rich source of branched chain amino acids (BCAA), which make up 1/3 of the amino acids in muscle protein. Whey is the only protein source that contains immunoglobulin’s, which are essential in maintaining immune system function. Our Super Healthy Whey™ protein powder is a high quality protein supplement that is formulated to be a highly efficient, rich source of protein.

Dr. Ward Bond’s Super Healthy Whey™ provides:
- 22 grams of protein per scoop, with no lactose or fat.
- Enhanced with L-glutamine and the branched chain amino acids, L-leucine, L-valine and L-isoleucine to further support the muscles.
- Provides 10% of the daily value for calcium per serving from the powder alone!
- Provides important proteins B-lactoglobulin, A-lactal bumin, immunoglobulin and lactoferrin. Safe for those who are lactose intolerant.
- Contains Xylitol, a natural sweetener which has been shown to have no affect on blood sugar levels.

Dr. Ward Bond’s Super Healthy Whey ™facts:
- 7th generation whey protein, considered the superior generation of whey, taking more steps to remove the unwanted components such as lactose and fat.
- Microfiltered, which refers to the filtration process used to purify the whey.
- Hydrolyzed, which refers to the cold spray drying process which results in making smaller, more refined particles, turning liquid into a powder – other companies use heat which denatures the protein bonds.
- Ion-Exchange, which refers to whey being put through an ionic column and cold air resulting in increased biological value or utilization by the body.
- Manufactured from cows not treated with rBGH (Recombinant bovine growth hormone)

Soy Free! Lactose Free. No sugar added. No artificial colors, flavors, corn, yeast, wheat, grain, or egg.

NEW Cholesterol Support

Synergistic formula that contains well-recognized and scientifically researched nutrients to support proper cardiovascular functioning and the maintenance of cholesterol levels within normal range.*

Reducing the risk from high LDLs can be accomplished in either of two ways: by lowering the amount of LDLs produced by the body, or by increasing the rate at which LDLs are sent back to the liver to be destroyed. The NEW Cholesterol Support does both! Naturally!

Cholesterol Support contains: Chromium Polynicotinate 200 mcg; Red Rice Yeast 600 mg; Policosanols 20 mg; Phytosterols Complex 500 mg; Coenzyme Q10 20 mg; Guggul Lipids Powder 200 mg; Artichoke (leaf) Extract 100 mg; Eicosapentaenoic Acid (EPA)(from fish oil) 180 mg

90 Capsules $39.95

Dr. Ward Bond’s MONOLAUARIN
New Super-High Potency! 600MG

Potent Anti-Viral & Anti-Fungal

One of the safest substances known to man is breast milk. This is where the monoglyceride of lauric acid (Monolaurin) is found. When an infant is born, it is totally dependent on food factors in the mother’s milk for immune protection. In analyzing the composition of human breast milk, medical researchers found lauric acid monoglycerides in high concentrations, which is what led them to study Monolaurin as an anti-viral agent (4,5). Monolaurin is also found in coconut oil, butter, and heavy cream; only recently has it been isolated and purified. It is highly unusual in pharmacology to find chemicals that are toxic to lower forms of life (bacteria, fungi, and viruses) but non-toxic to man. Monolaurin’s lack of toxicity makes it most promising.

Monolaurin has been shown to be active against influenza virus, pneumovirus, paramyxovirus (Newcastle), morbillivirus (rubeola), coronavirus (avian infectious, bronchitis virus), herpes simplex I & II, CMV, and Epstein Barr Virus.

Used for: Epstein Barr, Flu virus, Yeast/Fungus, Viral Infections, Ringworm, H. Pylori (acid reflux bacteria)

90 Capsule $34.95
Acid-A-Cal
Contains key nutrients for breaking down calcium accumulation or collection. Over-alkaline body fluids can throw calcium out of solution resulting in the formation of bone spurs and calcium deposits. These calcium deposits are simply a collection of calcium crystals that have dammed up where there has been injury and trauma to the body. Reasons to use could include: bone spurs, kidney stones, gallstones, bursitis, tendinitis, osteoporosis, joint stiffness after arising, muscle-leg-toe cramps at night, stomach cramps, indigestion soon after meals, hunger pains or faintness, urge to eat often, rapid digestion, frequent vomiting, slow or irregular pulse, constipation or diarrhea. Acid-A-Cal contains many nutrients shown to be important in balancing acid-alkaline in the body, as well as preventing the formation of calcium deposits. Acidifying compounds from natural origin such as ammonium chloride, betaine hydrochloride, and calcium phosphate help support balanced pH levels.

100 Capsules $18.95

Dibencoplex 10,000 mcg
The closest thing you can get next to a B12 shot! The most absorbable oral form of co-enzyme B12 available. Increases energy, mental alertness, improves red blood cell production and excellent for nervous system disorders. This co-enzyme B-12 is retained in body tissues to a greater degree than regular B-12. Dibencoxide’s mood elevating effects may produce increased mental focus, which would make it a great alternative as an energy supplement than caffeine. Anyone who has used B-12 injections with positive results would likely benefit from Dibencioxide. Dr. Ward Bond’s favorite!

30 Capsules $22.95

Maitake D-Fraction
Maitake mushrooms and the maitake D-fraction prepared from them contain a type of polysaccharide, called beta glucan (sometimes called beta glycans). Beta glucan is found in several mushrooms and other foods. Beta glucan is believed to stimulate the immune system and activate certain cells and proteins that attack cancer, including macrophages, T-cells, natural killer cells, and interleukin-1 and -2. In laboratory studies, it appears to slow the growth of cancer in some cell cultures and in mice. Highly recommended by Dr. Ward Bond.

120ml Liquid Extract $39.95

Artichoke Extract

Studies show that it may help the gall bladder and liver in their normal bodily processes, like breaking down and eliminating fat. Artichoke is a highly popular herbal remedy which helps maintain bowel health. It is particularly suitable for people who enjoy spicy foods and those who have a high caffeine intake.
Several clinical studies have demonstrated that artichoke extract can help alleviate digestive disorders associated with over indulgence, bloating and flatulence. Artichoke extract may also be helpful in maintaining healthy cholesterol levels by reducing the synthesis of cholesterol in the liver.

45 Tablets $25.95

Asparagus Extract

Asparagus Extract is a detoxifying agent. It is specifically designed to strengthen immunity and the benefit kidney and digestive functions. Asparagus Extract is effective in improving immunity and destroying abnormal cells. Normal cells can biosynthesize aspartic acid, which is necessary for cells to grow. However, unhealthy cells cannot biosynthesize aspartic acid themselves, so they depend on the normal cells’ aspartic acid to live. Asparagus Extract degrades aspartic acid to inhibit unwanted cell growth. Asparagus Extract is able to kill abnormal cells during electron transference. Asparagus Extract also contains a high quantity of the trace element Selenium, which is a powerful antioxidant.
